

FINAL REPORT

Project web Luma

By Budi Oct

1. Gambaran Umum Project

Website yang dilakukan pengujian yaitu : **LUMA E-Commerce (Adobe Commerce Demo)**

Pengujian dilakukan dengan tujuan :

- memastikan fitur utama e-commerce berjalan sesuai kebutuhan user
- Melakukan pengujian end-to-end dari user journey

Pengujian dilakukan dengan manual testing dengan Batasan scope fitur berikut:

- Sign Up
- Login
- Forgot Password
- Add to Cart
- Checkout
- Payment

2. Strategi & Metodologi Testing

- Test plan dibuat sebelum melakukan testing
- Test case dirancang berdasarkan user flow e-commerce
- Manual testing dilakukan menggunakan browser

3. Temuan Penting (Key Findings)

a) Behavior Checkout & Payment Flow

- Checkout dianggap selesai saat order berhasil dibuat
- Halaman payment merupakan fitur terpisah
- Ada beberapa bug terkait fitur checkout & payment yang mungkin memang perlu di fixing.
- Payment method pada LUMA bersifat default / non empty, sehingga tidak memungkinkan scenario “payment kosong”
- Ini bukan bug, melainkan **expected behaviora dari system**

b) Batasan Pengujian (Testing Limitation)

- Tidak dilakukan :
- UI cosmetic testing (shadow, hover, pixel-perfect)
- Negative testing kompleks pada payment
- **Alasan :**
- Fokus pada functional testing
- Dikarenakan ini web testing jadi tidak dapat melakukan real payment.

4. Kesimpulan

Project web testing LUMA berhasil mencakup pengujian end-to-end user journey dari login hingga payment. Manual testing memastikan validasi detail & edge case, melihat beberapa kemungkinan fitur yang dapat dipastikan dari sisi keamanan maupun fungsional dari sisi tester.

Dengan berhasil dan menemukan bugs serta kondisi fitur dengan **rekomendasi** logic dari tester dapat membuat web jadi jauh lebih baik.
